

GET YOUR \$99.00 WEBSITE ASSESSMENT REPORT

Website assessment includes:

- Site analytics
- Site map
- Keywords
- Page Titles
- Links
- Page Rank
- W3C Validation
- Content Optimization
- HTML Optimization
- Ad Words

Who would benefit from the assessment:

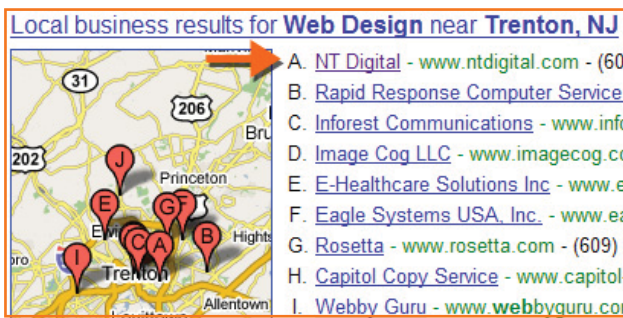

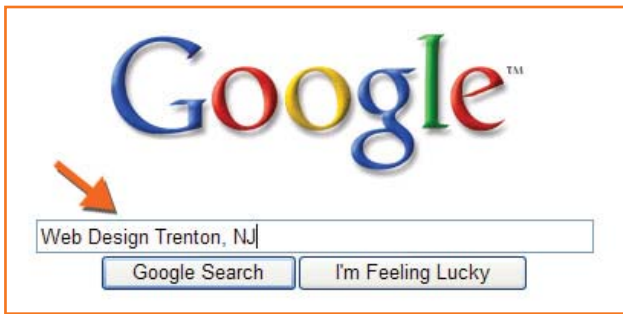

"Google is the new phone book!"

Most website designers are able to produce visually impressive websites; however they lack the unique skills to optimize these sites for search engines.

NT Digital's website assessment is a valuable tool that will give you the insight you need to understand your website's "searchability", and will provide compelling suggestions and solutions to help you move forward.

After our assessment is complete, you will receive a report that gives you a clear picture of a customers' ability to find your current website in a Google search. The report also provides you with a benchmark of where your site is today, in order to measure success after updates and improvements are made.

The report is comprehensive and clear.
